

# PST 91- Using the new Soundbase Offline RF coord features

Time into video	Question	Asker Name	Answer	Answer Name
0:06:51	When the yearly subscription runs out, will the product stop working offline, or will it only stop getting updates?	Andrew Broughton	live answered	Erskine
0:08:35	When the yearly subscription runs out, will the product stop working offline, or will it only stop getting updates?	Andrew Broughton	Data is not lost and can be saved and reimported into the online version if necessary.	Erskine
0:14:11	I love what you've done with Soundbase and Coord! A consideration of many users is that clients often forbid submitting data of any kind to any 3rd parties. It's also a concern regarding competition in our industry. What measures do you guys take to assure that every user's show data is completely secure and private in both the online and local versions?	Jason Glass	live answered	Matt Dale
0:19:33	Do you have an ETA on the Windows version of SoundBase Pro?	Anonymous Attendee	live answered	Matt Dale
0:26:11	Does the locally connected computer see the same sweep time?	chris McGuire	live answered	Erskine
0:33:21	I've had issues where changing the Points per scan changes the noise floor, atleast when I export into WWB. Is this something you e seen before or am I doing something wrong?	Johnny Crowder	live answered	Erskine
0:32:04	Does the VBW change with data points?	Nathan McBee	live answered	Erskine
0:32:07	Can you change it yourself?	Nathan McBee	live answered	Erskine
0:33:17	Is there a way to export your coordination or live scan to another format other than a csv file? Is it possible to export the data to a PDF file?	Hannah Szarko	live answered	Erskine
0:51:01	Any plans to combine devices from different zones in a custom view?	Nathan McBee	live answered	Erskine
0:49:15	Will the soundsync control only be available on the Pro version or, will it be available on the web app?	Chris Biggs	only PRO	Erskine
0:58:38	If I had a venue that I was managing remotely, they would need a Pro license, yes?	Ike Zimbel	live answered	Erskine
0:58:59	Not a question. Just cannot say enough good things about what you guys are doing here.	Elliot Carroll	live answered	Erskine
0:58:42	Very cool!	Ike Zimbel	live answered	Erskine
1:00:41	Is there any hope for a hardware interface with the Nexus module for ClearCom or Riedel?	Anonymous Attendee	live answered	Erskine
1:04:29	Does the collaboration work through all markets and countries or would you need a VPN for certain locations?	Nathan McBee	live answered	Erskine
1:04:41	In other words, A local project is like a Microsoft Word Doc local to you writing a project, a cloud project is like a Google Doc with shared editors.	Anonymous Attendee	YES!	Matt Dale
1:09:13	Do you have plans to allow connected audio devices to supply scan data to the Soundbase app? ex: Initiating a scan with a connected AD4Q receiver.	Nathan Lowe	Yes! We have experimented with Wisycom and Sennheiser for this so far.	Matt Dale
1:10:35	How are updates being pushed to the Standalone on Mac and PC?	Kyle Gibbard	ether when you go online or they are still designing hoe the update for local only users is done.	Erskine
1:12:31	You're welcome, and Thank you	Geoff Baynard	live answered	Erskine
1:19:32	Are these updates live?	Hugo E Gudino Jr	yes except device control	Erskine
1:24:32	Aren't the body packs and the IEM's the same devices?	Ike Zimbel	each mfr will have different config but they could be separate or combined.	Erskine
1:30:13	Thanks for all you do. Cheers!	Pasi Hara	live answered	Erskine
1:33:11	I'm not on tour this year yet but I'm happy to subscribe to support the development of this wonderful tool	Anonymous Attendee	live answered	Erskine
1:33:09	will dashboard and harmony be only for pro when released?	Jonathan Hermosillo	live answered	Erskine
